** CANADA. 7850 RCUSB, July 17 at 0622, CHU back on now, S9. And Richard Langley reports: ``Confirmed 7850 kHz back on again when I checked this morning (17 July) at about 1115 UT`` (Glenn Hauser, OK, WOR)

** CANADA. Re CHU missing several times from 7850, Richard Langley tells us July 23: ``Just heard back from a technical officer at the National Research Council: "Between July 13 and 16 we had problems with 7.85 MHz transmitters. The temperature in the transmitter room was extremely high, due to the outside temperature, and the transmitter was frequently off. There could also be other factors and we are observing this frequency on the air to make adjustments in the future." -- Richard Langley`` (via Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, as of July 23, in random daytime chex have not caught Trenton Military, CHR VOLMET; no 6754 USB at night. Let`s check whether either still be on at times (Glenn Hauser, OK, WOR)

** CANADA. 28193 CW, July 21 at 0435, tnx to sporadic E, horrible chirping signal, Ex17 VVV DE VE4ARM/B... WGB list: ``28193.0 VE4ARM/B – Manitoba Amateur Radio Museum – Austin MB CAN EN09mw – #0 (31 Mar 2025) Note: VVV de ID + grid + E × 16 – Pwr 5w`` QRZ.com: ``VE4ARM Canada flag Canada, MANITOBA AMATEUR RADIO MUSEUM INC. C/O Johnson, Bruce Frederick, 153 Wharton BLVD, Winnipeg, MB R2Y 0S9, Canada M.A.R.M INC INTERNET WEMSITE MARMINC.CA`` Heard before without the chirping. Only one other on 10m so late, see U S A (Glenn Hauser, OK, WOR)

** CATALONIA. 14204 USB, July 21 at 0511, VG signal from EA3AKP, John in Catalonia, making quick contacts with UStations such as KK7VCY. QRZ.com: ``EA3AKP Spain flag Spain, JOAN CANALS, POST OFFICE BOX 34, ARBUCIES – GIRONA 17401, Spain`` Lots of photos mostly antennas on https://www.qrz.com/db/EA3AKP
(Glenn Hauser, OK, WOR) see also SPAIN

** CHILE. 28471 USB, July 21 at 2210, CA3VAK calling DX in English, following a QSO in Spanish, only phone signal on band. QRZ.com: ``CA3VAK Chile flag Chile, Victor M. Aranguiz M., Santiago, Chile`` (Glenn Hauser, OK, WOR)

** CHINA. 18900, July 21 at 0438, JBA talk seems Chinese, no doubt CNR1 jammer vs Sound of Hope; often accompanied by one other signal on band, 18970, but not now (Glenn Hauser, OK, WOR)

** CUBA. 4765, July 22 at 0152, R. Progreso is gone again, and 5025 R. Rebelde a JBA carrier. Somethings always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 4765 at S9+20/40 R. Progreso, and 5025 at S9+15/25 R. Rebelde, 0237 UT July 23 both into Georgia SDR, playing different musix, and of course much better than direct audibility (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 17 at 1358, JBA in Spanish, RHC new frequency; while 15230 is a JBA carrier. Chris Campbell got this from his contact at RHC: ``RHC is trying a new frequency, 13780 in Spanish and I hope in a few days they will have tests on other frequencies for the English service.

The country is in chaos. Food, medicines, cooking gas, electricity, public transport. Too many needs extremely hard to satisfy. I am talking about the basics, no luxury at all. I am better than other people my age and some days I have just one meal to leave something

for the next day, not to mention saving something for the kids``

And from Luis H. Esquivel in California at 1224 UT July 17: ``Good Morning, I'm listening to RHC on 13780 kHz on one of my favorite Kiwi SDR's in Lamont, Alberta Canada, http://72.172.110.98:8175/ My go to SDR for being more local to me at the Mojave Desert California has been offline lately so I went to my next favorite because of the antenna system it uses and selected the 22m band and a strong signal got my attention at 13780 khz and to my surprise is Radio Habana Cuba. I'm recording it but hope you might be able to pick it up. Take care, sincerely, Luis H Esquivel, K6LHE`` (Glenn Hauser, OK, WORLD OF RADIO 2304)

** CUBA. 13780, July 18 at 2219 & 2310 & 2341 chex into Georgia SDR, NO signal from RHC`s new frequency any more. Did not check this morning (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 19 at 2234, RHC NF is missing again? No, but JBA Spanish into Maryland, other remotes where it should do better; underpowered? By 0001 July 20 direct check, no signal (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 20 at 1406, again no signal direct from RHC`s NF which was good while it lasted. 15230 is on at S5/S7, seems suptorted, too weak. Nor encountered anywhere else in quick bandscans of 9 thru 17 MHz bands, unless one of numerous JBA carriers not pursued (Glenn Hauser, OK, WOR)

** CUBA. 13780, July 22 at 1457, Spanish? JBA S4/S5 direct; 1459 RHC IS & ID. So NF is active but underpowered? It`s not on the ``new`` sked Chris Campbell got from someone at RHC; why in the world don`t they put it on website? It`s ``experimental``. 15230 also heard July 22 at 1455, suptorted S9/+5. And at 2159, 13780 is JBA S6/8 direct, and 15230 S9+10 of dead air if not JBM.

Their XLS sked dated March–November 2025 with time changes 9 March:

``SPANISH
N/C/SAm 1100–1400 & 2300–0500 on 6000 {also for English! below}
Buenos Aires 1200–1500 & 2300–0500 on 15230
MESA REDONDA {TV soundtrack, used to be M–F only}
Washington & Chicago 2200–2300 6000
ENGLISH
Washington 0000–0600 6000 {also for Spanish! above}
PORTUGUESE
Buenos Aires {sic} 2200–2300 15230
Note: French, Arabic, Esperanto and Creole go out on Real Audio``
{Sic, streaming only} (Glenn Hauser, OK, WOR)

** CUBA. 13780 and 15230 RHCs are on, July 23 at 1408 but JBA direct. At 2208, only 13780 is on with S9 of Spanish. Jean-Michel Aubier, France provides direct link to RHC webcasts:
https://icecast.teveo.cu/McW3fLhs
(Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, Tue July 22 at 1458, R. Martí already on from Grimesland NC, S7, promo `Actualidad Mundial` program. Then also heard on weaker 11930 and weakest 11860 (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, July 23 at 1402, R. Martí, heavily produced feature with music, about transmitters and semi-conductors at MIT, `Caja Digital` apparent name of segment. 11930 & 11860 are not on yet. Next check at 1513 into FL SDR, 11860 now also on but not 11930. Next2 check at 1600, still no 11930. Next3 check at 1844, all three on and roughly equal. Next4 check at 2159, 11930 & 11860 on but 9565 instead

of 13605; all about to go off. Not clear when 13605 switch to 9565 but unlikely for long (Glenn Hauser, OK, WOR) See also U S A

** CURACAO. 21300.2 USB, July 19 at 2255, CQ CQ from PJ2Y, at first sounded like PJ2YPJ till a different voice took over, or 21300.3? quick contacts, contest? QRZ.com: ``PJ2Y Curacao flag Curacao, James R Storms, 4968 Tilbury Rd, Huber Heights, OH 45424, Curacao - Here it is 2025 and we are on the air in Curacao from July 18 through July 21. Try to contact all kids on each band. Again we thank the Caribbean Contest Consortium for hosting us. Uli is here and doing a great job helping us with the station. A special thanks to Dayton Amateur Radio Association for being the major sponsor. As always DX engineering is a high level supporter along with Icom`` It seems this is an annual outing of ``The Dave Kalter Youth DX Adventure`` The OSOB, at least no other SSBs encountered (Glenn Hauser, OK, WOR)

** FRANCE. 5975-5980-5985, July 22 at 0201, DRM noise. Maybe just came on. EiBi shows TDF DRM Issoudun, irr. during these spans: 00-03 to WEu, 05-09 to NEu (Glenn Hauser, OK, WOR)

** FRANCE. 11700, July 21 at 0503, S9+20/30 of dead air direct, then JIP French, much better signal than usual. At 0508 I find // 13695 at S9/+10. EiBi shows 11700 RFI Issoudun at 0400-0700, shifting targets each hour, EAf/CAf/WAf, while 13695 at 0500-0700 from CAf to WAf (Glenn Hauser, OK, WOR)

** GERMANY. 9670.002, Sun July 20 at 1712, Channel 292 with `Uncle Bill`s Melting Pot` - missed the first dodekaminute since I was getting Turkey `Letterbox` out of the way: S9 into UTwente with occasional lightning crashes, as indeed on the Blitzortung map over Netherlands, much of Germany; they worsen as the hour progresses. At first it`s ``I Love Lucy`` theme; 1713 Mel Blanc as Al Jolson, ``Tut, tut, Tutsi, Goodbye``. 1716 YL German ID, Rosemary Clooney, ``C`m on to My House``. 1719 ``Monster`` from Vietnam War era by Steppenwolf. 1729 IDs, German, would like to resume weekly shows if enough contribute. 1730 rest of show salutes Canada Day July 1: ``O, Canada`` in English; 1732 another Cansong. 1735 William Shatner speaking, distancing himself from Star Trek rôle and making clear he is Canadian from Montréal, not American. 1740 Anne Murray, ``Snowbird`` from 1970. 1743 German ID, shoutouts to Fred Waterer, Sean Welsh. 1744 French Canadian song, 1748 another; 1755 polka. 1759 bumper sticker, QSL offer, contact info and finish (Glenn Hauser, OK, WOR)

** GERMANY. Tilford reply to my UBMP log on 9670: ``No soup for you, it was actually in Yiddish. You missed a flamenco/salsa Star Spangled Banner too. And for Letterbox? Tsk, tsk. :) --Uncle Bill`` (Glenn Hauser, OK, WOR)

** JAPAN [non]. 11730, July 21 at 0504, S9+20/30 of news in French; // 13600 at 0506, S9/+10. These are NHK via Issoudun at 0500-0520 (Glenn Hauser, OK, WOR)

** MALI. 5995, July 19 at 1851, R. Mali in token English for a few minutes on Saturdays only. Checking several remotes in Canary, Morocco, Spain, Sicily, Greece, Kuwait, Qatar, RSA, most getting nothing or too little except for TWR Johannesburg, but it`s insuff, only S7 vs high noise level. The OM speaker is more intelligible than the YL with a heavy French? accent. I recall that Fuerteventura, Canary Islands used to work best for this, but not now shown on the KiwiSDR roster. However, I do find and reach EA8BFK via another roster, almost too late: S9+20/30 at 1901 still English, mentioning the Malian Association of Teachers of English, and something about Nelson Mandela. 1903 wrapping up with frequency 92.0, and ``may God bless Mali`` at 1904 bit of music and switch to another language (Glenn Hauser, OK, WOR)

** MEXICO. 760.13, July 18 at 0535, het against WJR, again presumed XEDGO, Durango2, in mwoffsets at 760.125. I could believe it`s between .120 and point 130 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6965 USB, July 20 at 0007, pirate music, S9+10/20 vs NL of S9+10; retuned at 0009 just as a Wolverine Radio ID is uttered. More:
https://www.hfunderground.com/board/index.php/topic,147761.0.html
Theme is Woman, see playlist; SSTV illustrated with a reclining nude sculpture (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955 AM, July 20 at 0008, pirate music JBA S9+10/20. These say it`s Thunder Chicken Radio:
https://www.hfunderground.com/board/index.php/topic,147756.0.html
(Glenn Hauser, OK, WOR)

** OKLAHOMA. 92.1, July 20 at 0044 UT on caradio, bandscanning in case a bit of Es DX; at least two signals fading in and out here. Weak but clear for an ID, ``Heart & Soul 92.1 and 1140`` which is merely K221FQ OKC of KRMP 1140, which ought to be better than JBA in noise level; 99 watts.

Occasionally fading up to dominance on 92.1 is KFXI Marlow 100 kW, C&W; 0051 ID ``KFXI Foxy 92``, and now it is definitely with $tereo pilot, but was surely in mono whenever I heard it before and shown as such in WTFDA FM DB. I suppose we cannot be sure it will always be one or the other? If a station ever deliberately turn to mono e.g. during talk programming, it might forget to change back to $ (Glenn Hauser, Enid, WOR)

** PERU. 4955, July 19 at 2247, good Spanish signal into Lima remote, S9+10/22, no doubt R. Cultural Amauta, or is it just R. Amauta as in WRTH? I should have stayed for an ID. Hearing it directly is tough, especially since it is not 24h (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 17715 both S9+20/30 direct, 15520 S9/+10, and 15390 S7/S9, token English from SNR in news. 2207 feature about rising temps in the MeditSea, 5–7 degrees higher than a year ago (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+30/40, 15500 S9+20; 15520 S9/+10, 15390 S7/S9, Mon July 21 at 2200, token English from SNR direct, preview something about books, first public library in Madrid. 2201 news leads with PM Sánchez on official tour of S America to promote democracy, Chile first, then Paraguay, Uruguay; UN warns of catastrophic famine in Gaza; demonstrations against racism in Murcia (Glenn Hauser, OK, WOR)

** SPAIN. 15500 S9+20/30 // stronger 17715 S9+30/40 even tho the latter is for S America // 15520 S9, Wed July 23 at 2200, token English from SNR, preview topic to be about architecture in Catalonia, and an award concerning the Madrid city hall. News about corruption by the PM, blackouts; new law to reveal classified info concerning the transition from Franco to democracy (Glenn Hauser, OK, WOR)
see also CATALONIA

** TURKEY. 11785.003+, July 18 at 2158, VOT English not off the air, audible direct but insuff vs noise level. At 2220 into Georgia SDR, S8/9+5 in a travelog about Anatolia, with ACI from 11780 Brasil. At 2223 into UTwente when measured, S9+35/45 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003+, Sat July 19 at 2211, VOT English not off the air, S9+25/45 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11660.006+, July 20 at 1654, tune in just in time for

`Letterbox` on VOT, getting it out of the way even earlier this Sunday, S9+10/25 into UTwente with occasional lightning crashes. Cemle has news for SD`s Ricky Hein who is always complaining about bad reception on 11785 & 7275: Emirler tells her that repairs to the A41 antenna have been completed, should be OK from now on. She is supposed to be on annual leave last week and next, but son broke his arm. Monday will be visiting Vienna taking in the tourist attraxions. I can only guess at some of the names called: 1) Patrick Travers, England. 2) Anthony Beech, England. 3) Andrea --, Argentina. 4) Nasir Aziz, Pakistan. 5) Jayanta Chakraborty, India. 6) Mr May Lin, Sichuan, China. 7) David Ansell, UK. 1710, ``that`s it for today``, theme to 1711 and tune-out (Glenn Hauser, OK, WOR)

** TURKEY. 11785.020-, July 21 at 2159, 2200, no signal direct from VOT. Something`s always erroneous at Emirler. So tuning on to Spain, 10m beacons. But recheck at 2211, now it`s on at S9+10/20, yet insuff for easy listening vs noise level. 2250 into UTwente when measured, S9+30/45; 2253 s/off as if 17620 at 1230, something`s always awry at Ankara; 2254 IS. 2256 restart IS with German IDs, erroneous at Emirler. 2300 TS and opening in German with transmissions on 15 and 9 MHz bands. Altrichten to chop at 2303* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004+, July 22 at 2158, VOT not off the air, IS & IDs in English, S9+10/20 direct but no match for noise level. 2249 into UTwente when measured, S9+35 with music. 2251 s/off by Efsun the axentuated as if it were the 1230 on 17620; something`s always awry at Ankara [I know you may tire of reading that, but I tire of hearing that, announcers totally ignoring all the repeats]. 2253, 8 notes of IS and chopoff*, no finesse. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 11785.005-, July 23 at 2159, VOT not off the air, IS & IDs in English, S9+10/20, stronger than usual direct and readable if not noise-free. 2206 in olds, S9+20/30. At 2240 into UTwente when measured, S9+30/40 with music, TRTVOTVorld.com promo. Retune 2255 just in time to hear IS till chop at 2255.7* uncovering another much weaker carrier with deadair/hum on 11785.004-, what? Nothing else in EiBi, China not until *0000, but I see VOT listed on 11780 instead! That happened only once, by mistake or experiment, as I reported. The mystery off too by 2400, no China heard (Glenn Hauser, OK, WOR)

** U S A. I bandscan for LW/MW beacons every latenight, in case anything change or make it thru my horrible line noise level/storm noise. 245 kHz, July 22 at 0646 UT has a JBA carrier, most likely the only one logged under better conditions: FS, Sioux FallS SD, 400 watts. Can`t even get a carrier on 255 from my closest, SW, StillWater OK, or 332 IC, wIChita KS. 293, FBY FairBurY NE also used to outshine the others. Only other one making it now is 407, HRU in HeRington KS, 25 watts. Always audible: 515, PN, PoNca City OK (Glenn Hauser, OK, WOR)

** U S A. 25000, July 20 at 0026 since WWV is well heard now via sporadic E, I measure the offset on my R75: as if on 25000.113. And on 20000.078. And on 10000.044. Each may be a few Hz off; obviously the higher the frequency, the greater the error, but should be proportional. There is probably an adjustment somewhere inside the radio to ``zero`` the readout; but meanwhile this can be a rough correxion factor for other frequencies (Glenn Hauser, OK, WOR)

** U S A. 28200+ CW, July 19 at 2347, beacon with 20 E`s and very fast msg, starting with NST, which was probably really TEST, and from N4WLO/B, Theodore AL, heard before, listed 28200.5.

28209.5 CW, July 19 at 2348, K7EMX/B is audible as well as WWV on 25000; Kearns UT, no doubt reminding us to check out his QRZ.com site

for loads of jabs at our dear leader: https://www.qrz.com/db/K7EMX
(Glenn Hauser, OK, WOR)

** U S A. 28224+ CW, July 21 at 0433, K5GJR/B, nice slow sending, band
open late tnx to sporadic E; only this and CANADA, q.v. WGB list:
``28224.5 K5GJR/B - Orange Grove TX USA EL17hr - #0 (15 Mar 2025)
Note: ID + grid - A-99 vertical pwr 2.5w`` - QRZ.com: `` K5GJR USA
flag USA, Randy L Bates, 505 County Rd 231, Orange Grove, TX 78372,
USA I have a 10mtr beacon that runs 24/7 at 28.224.5,consisting of a
Radio Shack HTX100, putting out 2.5 watts, using a Pico keyer kit I
assembled, into a Antron A-99 vertical antenna at 40'`` Orange Grove
is just west of Christ`s Corpse. Heard before (Glenn Hauser, OK, WOR)

** U S A. 28215 CW, July 21 at 2207, VVV KA9SZX [no /B], EN40pk, also
.com and a dash. WGB list: ``28215.0 KA9SZX - Macomb IL USA EN40pk -
#0 (20 Feb 2024) Note: Ant Cushcraft CX-1000 pwr 3w``. QRZ.com:
``KA9SZX USA flag USA, MARK A GARRETT, 9885 E 950 th ST, Macomb, IL
61455, USA`` (Glenn Hauser, OK, WOR)

** U S A. 28297 CW, July 21 at 2209, Ex4 DE NS9RC - WGB list:
``28297.0 NS9RC - Highland Park IL USA EN62be - #0 (08 Apr 2025) Note:
de ID + grid EEE - Half wave vertical pwr 5w - North Shore Radio
Club`` QRZ.com: ``NS9RC USA flag USA, Rob W Orr, NORTH SHORE RADIO
CLUB INC, PO BOX 1066, Highland Park, IL 60035, USA - To help discover
band openings, the NSRC has operated a propagation beacon on 28.297
MHz since 2001. It is located at the Heller Nature Center in Highland
Park, IL about 27 miles north of downtown Chicago. The beacon was
built from a Radio Shack HTX-100 running 5 watts to a Cushcraft AR-10
half wave vertical. CW message keying is performed by an Ultimate
PicoKeyer. The 10M band is open a lot more often than you may think,
even during periods of low sunspot activity, so be sure to check the
beacon section of the band between 28.200 and 28.300 regularly, you
may be pleasantly surprised with what you hear. Over the years we have
received reception reports from over 30 countries and every continent
except Antarctica.`` Heard before (Glenn Hauser, OK, WOR)

** U S A. 13605, 11930, 11860, July 17 at 1356 Grimesland open
carriers for R. Martí which blasts programming by 1400 (Glenn Hauser,
OK, WOR) see also CUBA [non]

** U S A. Mike Cooper forwards this news July 23:
``[WOR] Washington Post: Kari Lake moves to consolidate her power to
dismantle Voice of America -- The Arizonan, an ally of President
Trump, has managed to lock out her nominal boss and is trying to
dispatch VOA's director to North Carolina.
July 23, 2025 at 3:54 p.m. EDT By Scott Nover...
https://www.washingtonpost.com/business/2025/07/23/kari-lake-voa-dismissals-dismantling/
(via Glenn Hauser, OK, WOR)

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: confirmed first SWBC, Friday July 18 at 1300 on WRMI 15770, JBA direct.

Also confirmed Friday July 18 at 2039 the 2030 on WRMI webcast, presumably still only tho did not check 9955 to be sure.

Also confirmed Friday July 18 at 2040 the 2030 on IRRS SW via AM Italia, 1323, S5/S6 into nearby Parma SDR, but not on 918 anymore, nor 207.

Also confirmed Friday July 18 at 2202 the 2200 on WRMI 9955, sounds JBM direct, at 2211 recognizably me; and at 2220 into Georgia SDR, S9/+10 and modulation seems adequate: often such an anomaly concerning 9955.

Also confirmed Friday July 18 at 2230 on SW Gold Radio, Germany, 3975.000+, S8/9+5 into UTwente. Next:

0300 UT Saturday WTWW 5085 [sometimes];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];

1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: confirmed UT Saturday July 19 at 0300 on WTWW 5085, S9+40/50 direct. After Ancient Word Radio and WTWW IDs claiming 100 kW, as usual I am introduced as a ``ministry``.

Also confirmed Saturday July 19 at 1441 the 1430 on SW Gold Radio, Germany, 6160.001-, S9+5 into UTwente.

Also confirmed Saturday July 19 at 1600 on WRN North America stream

Also confirmed Saturday July 19 at 1732 the 1730 on SW Gold Radio, Germany, 6160.002- S9/+10 and 3975.001+ S7/S9 with self-imposed tone, into UTwente.

Also confirmed Saturday July 19 at 1939 about 5 minutes into so started circa 1934 UT on WA0RCR, 1860 AM, Wentzville MO, S5.5 into K9VD Jerseyville IL remote only.

Also confirmed Saturday July 19 at 2023 the 2000 on WRN Europe stream.

Also confirmed Saturday July 19 at 2100 on WRMI 9395, S9+25 into Georgia SDR.

Also confirmed Saturday July 19 at 2230 on WRMI 15770, abnormally JBA into Maryland SDR, but S9/+15 into UTwente where it`s aimed.

Also confirmed UT Sunday July 20 from 0325 the 0315v on WA0RCR, 1860 AM, MO, S8/9+15 into N9AZZ remote in IL. Next:

1900 UT Sunday IRRS SW via AM Italia 1323 and/or 918;
2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;

2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: Since I happen to awaken at 1030 UT Sunday July 20, I check what`s happening on WRMI 9955. Is on, JBA and at first I think it`s me, but shortly is a little stronger with Yahwah stuff, no doubt CRR.

Also confirmed Sunday July 20 at 1902 the 1900 on IRRS SW via AM Italia, 1322.995, S8/S5 into Parma SDR. Too bad not keeping 918 on too. Next:

2100 UT Sunday WRMI 15770 to NE;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: confirmed Sunday July 20 at 2020 the 2000 on WRN Europe stream.

Also confirmed Sunday July 20 at 2100 on WRMI 15770, S8/9+5 into UTwente.

Also confirmed Sunday July 20 at 2157 the 2130 on SW Gold Radio, Germany, 6159.999, S9+10/15; and 3975.002, S9+10/15 into UTwente.

Also confirmed Sunday July 20 at 2330 on WRMI 9455, S9+35/45 into Maurice, Louisiana SDR.

Also confirmed UT Monday July 21 at 0030 on WRMI 7780, S9+15/20 into Maurice LA SDR; Spanish preaching interrupted at 0029.5 for ID, then WOR.

Also confirmed UT Monday July 21 at 0130 on WRN North America stream.

Also confirmed UT Monday July 21 from 0304 on Area 51 webcast only: JL was chopped off at 0300 for s/off of 5130-, anti-Trump rant, not finished until 0303, 11-L S/off, Gotta Go.

Also confirmed Monday July 21 at 1930 on SW Gold Radio, Germany, S9/+20 on 6160.000- and S8/9+10 on 3975.001- into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323 and/or 918;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;

0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: NOT confirmed UT Tuesday July 22 at 0330 on WRMI 7780, since that transmitter is OFF!

Also confirmed Tuesday July 22 at 1300 on WRMI 9955, JBA

Also confirmed Tuesday July 22 at 1400 on WRMI 9955, JBA.

Also confirmed Tuesday July 22 at 2000 on IRRS SW via AM Italia, 1322.994+, S9 into UTwente across Europe, by which I mean 858 km = 533 statute miles from Villa Estense to Enschede. Not on 918 or 207. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW [NEW];
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2304 monitoring: confirmed Tuesday July 22 at 2330 on WRMI 9395, S9+25/35 into Georgia SDR.

Also confirmed UT Wednesday July 23 at 0030 on WRMI 9395, S9+25/30 into Georgia SDR; following `Blues Radio International`.

Also confirmed Wednesday July 23 at 1930 on SW Gold Radio, Germany, 6160.001+/.002−, S9/+15 and 3975.001−, S9+5/10 both into UTwente.

Also confirmed Wednesday July 23 at 2100 on WBCQ 7490 −74 Hz = 7489.924, S6/9+5 into NH SDR; still preceded by TOMBS for several weeks, rather than `Pirate Joe Extravaganzo` as still on schedule. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Peter Robinson, Preston UK, a very generous contribution via PayPal, to woradio at yahoo.com

One may also contribute by MO or check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 9930, July 17 at 1350, WTWW already on with TOMBS. If now 24h, what is the switch time between 5920 & 9930; from 9930 to 5920 had been 0130, or earlier 0100?

Tony Pavick reports July 16: ``Regarding Overcomer on WTWW 9930: I caught them this morning 1300 UT with and very good signal with somewhat distorted audio, apart from the incredible caterwauling of the singer on the Overcomer broadcast. My reason for mentioning it here is that while the post here says 70 kilowatts, the WTWW top of hour ID said 100 kilowatts. No doubt they are just using a previously recorded ID. Tony Pavick, Hope BC``

Yes, nominal 100 kW, but George reduces to 70 to save expenses, and feels there is no difference to the listener (Glenn Hauser, OK, WOR)

** U S A. 9980-10010 & 9855-9875, rough spans of TOMBS splatter out of 9930 WTWW, July 18 at 2210 direct. No longer have to differentiate it from 9980 as WWCR is QRT. Especially annoying vs 10000 WWV! But 9955 WRMI and I, more or less unscathed (Glenn Hauser, OK, WOR)

** U S A. 5085, UT Sat July 19 at 0102, this WTWW is on air with preaching, not BS nor T2P nor PPP? So prospects are good for WOR at 0300 (Glenn Hauser, OK, WOR)

** U S A. 9930, July 19 at 2342, WTWW with TOMBS is S9+40 direct, and no spurs or splatter unlike yesterday (Glenn Hauser, OK, WOR)

** U S A. 5920, July 21 at 0456, this WTWW for TOMBS is unusually absent; had been running late presumed all-night. What`s wrong now? (Glenn Hauser, OK, WOR)

** U S A. 5920, July 22 at 0154 UT, WTWW is extremely distorted with hum and putting out various spur noises down to 5895 or so. Not so much on the plus side altho 5935 occupied by WWCR. The other WTWW, 5085, is still off (Glenn Hauser, OK, WOR)

** U S A. 5920, July 22 at 0635, WTWW with TOMBS now clear except for some hum, S9+20/30, no spurs audible like earlier at 0154 (Glenn Hauser, OK, WOR)

** U S A. 9842-9885 & 9975-10006 approx. range, direct, splatter spurs out of 9930 WTWW which is S9+50/60, also with the plus/minus 12.8 kHz spur carriers. The lower splatter range peaked around 9860. 9930 had been OK around 1500 (Glenn Hauser, OK, WOR)

** U S A. 9930, July 23 at 1410, WTWW with TOMBS, SSOB by far at S9+25, and no spurs. Next check at 2204, some splash about 9905-9950, but could be much worse (Glenn Hauser, OK, WOR)

** U S A. 9395, July 17 at 1349, S5/S6 of open carrier/dead air. This WRMI-6 is supposed to be 24h, with `Classic Redneck Radio` at this time (Glenn Hauser, OK, WOR)

** U S A. 5800, 5850, 5950, 7730, 9455 strongest with hum, July 18 at 0554, dead air on all these WRMIs instead of scheduled `Classic Redneck Radio`, quite an improvement. Too weak to be sure: 7780, 15770, while 9955 seems JBM. Xmtr grid shows System E, C.R.R. before 0600 on: 7730, 9955, 5950, 5800, 9455, 5850, 7780. WRMI jingle and `Lifeline` heard on 7570, sked for `Legends` on Sys C; SMTV on 9395 & 15770 Sys J (Glenn Hauser, OK, WOR)

** U S A. 5050 & 5800, July 22 at 0150, these WRMI frequencies are off, supposed to be on; while these are really on: 5010, 5850 & 5950 (Glenn Hauser, OK, WOR)

** U S A. WRMI check July 22 at 0637: these frequencies are OFF: 5010, 5050, 5800, 7570, 7780. 7780 was also off at 0330 for WOR. These ON at 0637: 5850, 5950, 7730, 9395, 9455, 9955, 15770 (Glenn Hauser, OK, WOR)

** U S A. WRMI check July 23 at 1412: 9455 & 9955 are off, 9395 & 15770 JBA (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, July 18 at 2345 into NH remote: 7490 -73 Hz = 7489.927, S9/+5 with FKB; 6160.001 algo else JBA presumably East Turkistan. 5130 -84 Hz = 5129.916, open carrier S9+5. 3265 is ON for first time in a long time, FKB // 7490-, S5/S9 but I don`t get it measured before off again; habitually way on the plus side unlike the others. 9330 S7/S8 WLCR Portuguese. At 2355, 5130- has started IS & ID loop.

July 19 at 0000, 5130- with ID, dead air, something not AAAWWW, presumably the ex-6160 program. At 0002 as expected, 3265, 7490- and 9330.0 are in WTO and `AAAWWW`, initial comment: ``another day, another dollar``. 7490 suffers from OTH radar clickery on the minus side, so I keep listening on USB, or 3265. Angela is on the phone, and we rarely hear from her during the hour. It turns out that I listen to the whole thing, as there is not a bit about Drumpf. It`s hot everywhere. First live show in a while. Allan is alone in Maine. Been working on transmitters. Moving heavy plate transformers. 6160 has been down for a couple of weeks. 50 kW unit has a 10 kW driver, and the xfmr burned out. It`s 65 years old, air-cooled, not oil-. From the graveyard a replacement weighs 800 lb, so moved it into the 6160 building, but will take a while to modify and rewire. Wayne Anderson, longtime staffer, multi-tasker, died suddenly of heart attack a week ago, very much missed, at age 59. Diet advice: avoid processed foods, red meat except as occasional treat. By 0029 the storm noise level is growing so I switch to the A51 webcast - even tho A51 is now on neither 5130 nor 6160. 0030 datestamp as live on 18 July, YOOLF 2025, trimulcasting on 9330, 7490, 3265. 0032 spends rest of hour reading an essay he got by email from Green World Order, about how humanity should stop warring, reduce population over time, and provide energy abundance for everyone. I agree it was good and thought-provoking, except for some of the religious angles, q.v.? Finished just in time for a quick prayer and turn over to Hal Turner - except not on the A51 stream, instead ID as WKHS in northern Maryland, Kent? County High School. WTFDA FMDB shows WKHS as 90.5 in Worton MD, relay of WXPN 88.5, adult alternative (Glenn Hauser, OK, WOR)

** U S A. 5130, July 22 at 0150, no signal from this WBCQ, but at 0200 there is a JBA carrier on 6159.94, so apparently reactivated (Glenn Hauser, OK, WOR)

** U S A. 9265, Thu July 17 at 0620, S9/+5, screaming gospel huxter, not // 5920 TOMBS, so not TOMBS? WINB extended schedule as occasionally happens. What does program sked show? Effective July 13, but not with this: still claims WINB Off Air, Thursdays 0400-1858! And every day, except Sundays, off 0400-1158, Saturdays off 0400-1500. Also 9265 JBA at 1348 July 17 (Glenn Hauser, OK, WOR)

** U S A. 12050, July 22 at 2206, no sign from WEWN RCM, nor earlier today; it`s been missing more than present lately, sporadic (Glenn Hauser, OK, WOR)

** U S A. 1030 kHz, July 18 at 0550 UT, ``News Radio WBZ`` ID in passing. Always glad to pick up this most distant of the conterminous clears, Boston at 1484 miles (Seattle only 1456). Mixed with gospel-sounding harmonies I was hoping to ID, as daytimer/limiteder 50 KCTA Corpus Christi TX has been reported running too late. Unfortunately there are a few other REL formats on 1030. Needed to DF it (Glenn Hauser, OK, WOR)

** U S A. 1700 kHz, July 21 at 0445 UT, 10-second clip of a song in Spanish followed by 6 seconds of dead air - exactly the same thing repeated over and over in a loop, still at 0501 -- and *still* at my final chex 0628, 0640! Obviously the usual 1700 dominant here, KKLF, U1 5/1 kW Richardson TX in The Metroplex, Jalapeño Radio, but in NRC AM Log, address in far Corpus Christi. What a joke! (Glenn Hauser, OK, WOR)

** VANUATU. 9960, July 23 circa 0630, R. Vanuatu with better signal than 9955 WRMI. At 1411, JBA carrier on 9960, what else? As 9955 WRMI is off (Glenn Hauser, OK, WOR)

** VATICAN. 9710, Mon July 21 at 0458, S9+10/20, Ukrainian about

Apostle Paul, 0459 R. Vatikan ID, Laudetur Iesus Christus, 2 notes of IS and off*. Back on *0459.5 more of IS, 0500 LIX and opening Russian, ``Govorit Radio Vatikan``. These are daily per EiBi; on Sundays Ukrainian also at 0605-0700. Then at 0505 I find the same on 11815, S9+20/30 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6130, July 22 at 0156, JBA talk in Amerenglish, or maybe two audios mixing, gone at 0159. Can`t figure out any 49mb mixing product. Doubt it`s the 24h R. Europe, low power in Neth, much less Tibet (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 17925 USB, July 21 at 0440, JBA contact in English; seems not just ATC info. EiBi shows only on this frequency: 24h, San Francisco R. LDOC, E Oc dx; but Kingenfuß 2022 adds more: Thailand, Guam, Alaska, Hawaii, NY (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 28340 USB, July 20 at 0012-0025, two or three hams in colloquial Spanish, never heard an ID as they were more interested in masticando trapos. No other SSBs audible on 10m, but a few beacons. No hits on dxheat/dxcluster (Glenn Hauser, OK, WOR)
